Release Notes:

Version 2021.00 (Released 2/15/2021)

- Income Tax Adjustments for 2021.
- Estate Tax Exclusion for 2021 (\$11,700,000).
- AFR: The popup form that shows the historical AFR and \$7520 rates have two new features:
 - Manual download of the AFR Rate file.
 - FAQs about the AFR Rate.
- AFR: Automatic Download Feature: At the start of CFP, the AFR did not automatically download the file until you clicked on a different model than what was initially loaded (CRAT). Once you clicked on a different model the automatic download occurred. This feature has been modified to ensure download at program startup.
- Results Not Current Alert: CFP now has an alert that appears at the top of the screen when an input has changed.
- Models with the Optimization function now have a message to indicate that user needs to recalculate the optimized results.
- New Release Information: A new link can be found in the "Help" menu. This new feature displays a screen with the version Release Notes.
- Economic Schedules for CRAT, CRUT, CLUT, CLAT: for a single life case where the age is 108/109, the duration of the schedule is based off the truncated Life Expectancy. For these ages, it resulted in the schedule not being updated. These ages now illustrate a one-year schedule.
