

All Desktop products require the initial purchase of the software and the annual maintenance service fee to remain active and operable. The maintenance service allows your software license to stay current and receive updates, new features, legislative and tax law changes, bug-fixes, etc. Expiration or lapse of your annual maintenance service fees could result in the requirement to purchase a new license of the software.

The pricing includes the initial purchase of one (1) software license and six (6) months of complimentary maintenance service. At the expiration of this complimentary maintenance service period (6 months from the date of initial purchase), you will be charged for the first year of annual maintenance service. Your next fee will be assessed exactly one (1) year later and every year after that for your yearly maintenance service.
